Contents

1   Holo Fuel Python Modules

To support interaction with Holo Fuel from within Python, code the `holofuel` module is provided.

```
>>> import holofuel as hf
>>> ...
```

2   Holo Fuel Modelling

To support testing and modelling Holo Fuel system operations, several modules are provided.

```
>>> import holofuel.model as hfmod
>>> balance = hfmod.control.pid.controller( ... )
>>> reserve = hfmod.trading.exchange( ... )
```
